There may arise cases wherein the driver may help the helper/cleaner to learn driving using the vehicle during transportation, which is highly risky and dangerous. Also during normal parking and all, the driver may let the helper/cleaner to drive for same. GASONET SERVICES (RJ) LIMITED

				12% as per Govt. of India notification and quoting 5% under reverse charge is not acceptable by GST authorities and can attract heavy penalty with payment of interest and actual GST amount at 12%. So to save bidders as well as your Company also from future problems and for fairness of quoted rates, it should be made 12%.	
14				The maintenance of vehicles is allowed only 24 hrs. in a month. As you are asking for vehicles for 2019 model and the routes are mostly hilly in case of UK and Himachal Pardesh and difficult to get maintenance team in case of emergency, it is suggested that maintenance period be increased from mentioned 1 day to atleast 3 days in a month.	The maintenance of vehicles is allowed only 48 hrs in a month.
